Hi Emily!

This is such great news (both the fact that you got to sleep in and that things are going positively)! Thank you so much for the updates and your open communication this weekend, both Darin and I certainly appreciate it.

We will be on-duty for a few more hours but will be sure to let you know when we are standing down for the day, so please feel free to reach out if there is anything you need.

If we don't get a chance to speak again before the end of the day, I hope you have a great rest of your Family Day! I think Christopher is working on scheduling an EOC tour with Chief Laforet sometime after his return so hopefully we will get a chance to connect in person soon!

Best regards,

Holly Robert

Thanks for checking in Holly and Darin! I slept in today, what a lovely thing to be able to do.

Mostly status quo, opened up northbound lanes of Huron Church from industrial and Northwood. All business driveways will be open by the end of the day up to Malden Rd. No protest activity.

So overall the situation is moving forward positively.

I hope the two of you are able to get a bit of rest today as well.

WIN00000911

Good afternoon Emily,

We hope you were able to get in some rest and family time today! Understanding that yesterdays demonstrations were uneventful, Darin and I were just looking to check in and see if you were aware of any protest/demonstration activities anticipated for today and/or if you have any updates on the current situation.

We also noted that Windsor Police posted a traffic update on their social media channels earlier today. We have also not been made aware of any convoy activities for the area through our MTO or OPP partners.

Any additional information you may be able to provide, even if there are no changes/situation is status quo, would be greatly appreciated as we will be providing another update to the PEOC this afternoon.

Best regards,

Holly Robert
